

Handicaps and Flights

DETERMINING YOUR TEAM'S FLIGHT: Your flight is determined by the total of all 4 of your team members' handicaps. Each player must list a handicap. If you have a USGA Handicap, please list it in the space provided on registration. If you do not have a USGA Handicap, please consult the chart below for approximate individual handicaps. Using the chart: Ask yourself, " what is my average-to-good range of scores for **18 holes**", and then find the corresponding handicap. If you usually play just 9 holes, double those scores and consult the chart below. Please, be fair and do not overstate your handicap.
